COLLECTION 2024

## AT PETREBELS CATS ARE KING!

Hey! We are Petrebels – a fun and self-willed pet brand with an important mission: to make cats all over the world happy. Therefore we made a cat tree collection that fits with each race or character.

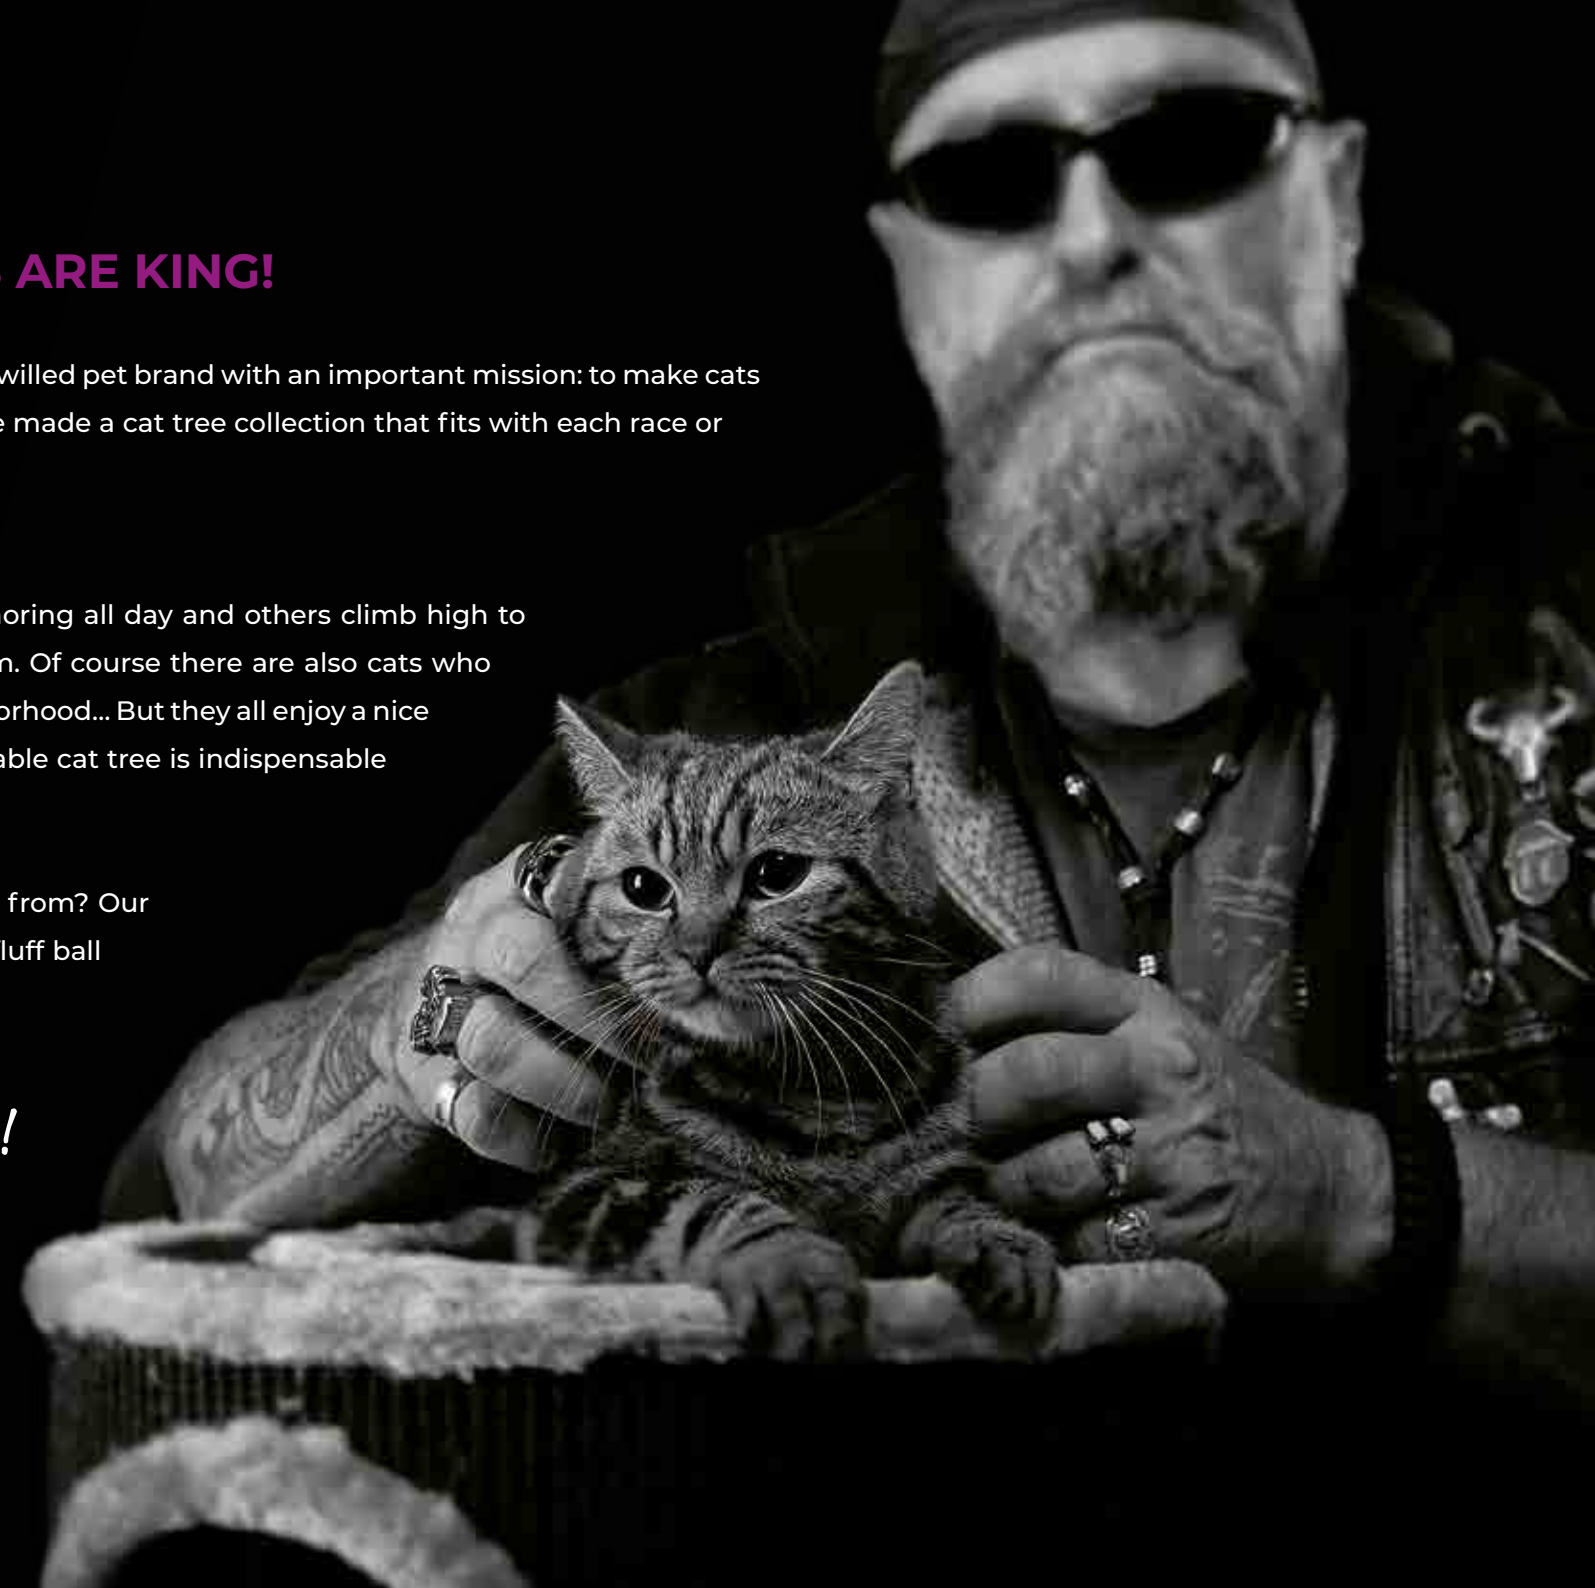

### A CAT TREE FOR EVERY KIND OF CAT

Each cat is different – some prefer snoring all day and others climb high to keep an eye on the world below them. Of course there are also cats who just really enjoy terrorising the neighborhood... But they all enjoy a nice stretch or scratch. Thus, a safe and stable cat tree is indispensable in your home.

Wonder where our inspiration comes from? Our own cat Freddie: a stubborn, badass fluff ball who loves “his” humans. A real Rebel!

## TEST REBEL

That's me!

Hi, I'm Freddie and I'm a housemate of Dennis and Yvonne from Petrebels. Nice people. And very cocky, I like that. They find me a bit grumpy sometimes, but mostly they find me very sweet. Apparently they think I am smart and important, because they regularly let me come along to test their new cat trees.

It is the mission of Petrebels to make cats all over the world happy with stable and durable cat trees. And I like to help them with that. Therefore I put my nails in every new model and subject it to an extensive inspection. I check if there is enough space to scratch, if the sleeping places are soft enough and if the cat trees can take a beating.

I am less concerned with the design of the cat trees, because the team of Petrebels knows more about it than me. They design all their products themselves and know exactly how to make a cat tree that makes me happy.

Greetings and a paw,

Freddie

# 100% PETREBELS

## IT ALL STARTS WITH OUR PACKAGING

We produce some of the best cat trees. And no, we are not afraid to say this! Every single one of our models is designed by ourselves and handmade, tested and colored thoroughly by experts. After that the product will receive our very own logo - our own quality mark.

### Our quality demands:

- Beautiful design
- Stable quality
- Sustainable and safe materials
- Honest price

We are not scared to stand out. That's why we chose the purple packaging and logo. When you see our logo you immediately know you've got a quality product!

## THIS IS PETREBELS QUALITY

### STABILITY AND SAFETY

A heavy baseplate and thick posts are very important for the stability of the cat tree. The average cat tree has a baseplate of just 0,8 cm thick, which is way too thin. Our bottom plates are up to 4 cm thick for optimal stability.

### IN-HOUSE DUTCH DESIGN

All our cat trees are designed by cat experts, in-house. This way we can guarantee a design that is 100% aimed at the wellbeing of your cat(s).

### LONGER LIFESPAN

We use extra thick sisal up to 6mm thick, super solid posts and high density plush for extra resistance and a longer lifespan. Even for the strongest scratchers.

### PERSONAL SERVICE

We want the very best for our Rebels. We answer all your questions personally and with great enthusiasm. We are proud of our products and want to go the extra mile to give you the service you deserve.

### SUSTAINABLE AND RESPONSIBLE

The safety of your cat is our top priority – your cat should be able to scratch, sleep and play carefree. Therefore our cat furniture is always free of toxins or harmful materials.

### SPARE PARTS SERVICE

Need replacements? No problem! All parts are available to order with our spare parts form on our website.

## QUITE A CHARACTER...

### CHOOSE THE BEST CAT TREE FOR YOUR CAT

Cats...You've got to love them! They are kind, fun and stubborn. But every cat is different and has different needs. We understand this and therefore designed a perfect cat tree for every character.

#### THE LAZY REBEL

Cats sleep up to 16 hours a day with full commitment: lots of stretching and shameless yawning... Mhmm, delicious. The lazy Rebel masters this trait like no other and prefers to leave the running and playing to someone else. This lazy napper is able to lie down anywhere to take a well-deserved rest, but they prefer a nice and soft hammock or basket.

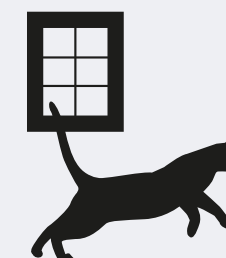

#### THE OUTDOOR REBEL

Outdoor cats love adventure and freedom. They often hide in bushes to keep an eye on their surroundings. They can entertain themselves for hours with bugs flying around and they might even take home a real mouse for you! The outdoor Rebel will come home to cuddle with its owner and to eat peacefully. This adventurer would appreciate it if there is a nice spot in your house to rest before the next adventure.

#### THE SCRATCHING REBEL

Cats naturally have the need to sharpen their nails. This way they mark their territory. It also makes them relaxed and happy. The scratching Rebel will never stop when it comes to this. Transform your house into a "scratching paradise" for this Rebel and supply it with one or several good cat trees.

#### THE INDOOR REBEL

Some cats prefer to stay inside, this can also be a decision made by the owner. Indoor Rebels enjoy watching the outside world - and everything exciting that happens there. You can make these cats happy by making the indoor world just as exciting as the outdoor world. Stimulate their senses with toys and cat furniture in which they can climb. This way they remain healthy and happy.

# DIRTY REBELS

## FIRST-CLASS CAT LITTER

### FOR MESSY JOBS ONLY!

As beautiful, tender and sweet as your Rebels can be, that's how dirty the job can be to clean their litter boxes. That's why DIRTY REBELS is made especially for you and your darling so that this annoying activity is nothing more than a memory.

Petrebels has developed, with the utmost care, a top quality cat litter to make your 'stinkers' happy again. DIRTY REBELS absorbs 4 times its volume and immediately makes solid clumps. You can easily shovel through your litter box to get the cleanest result.

### 100% NATURAL

We want what's best for your cat: we don't use over-complicated, expensive, overly-fabricated products for our DIRTY REBELS. All the best things come from nature, so our cat litter does as well!

### ABSORBS UP TO 4 TIMES ITS VOLUME

Cleaning your litter box; what a mess, what a hassle. We can't make it more fun, but we can make it easier. Big clumps equals faster cleaning! Less time spent on cleaning means more time to cuddle your Rebel!

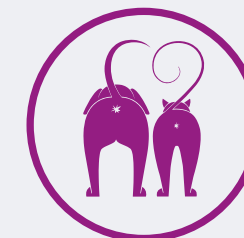

### SUPER SOLID CLUMPS

Big clumps are useless if they crumble when you touch them. DIRTY REBELS doesn't make solid clumps, but SUPER solid clumps. What's the difference you ask? The more solid the clump, the less dust in your home. Also it's easier to clean, duh.

### FOR MULTIPLE CATS

Personally, we don't like to share the lavatory with others, but this probably isn't a problem for your Rebel(s). With our new DIRTY REBELS your cats can enjoy answering the call of nature in company!

### FORMULATED BY PETREBELS

We know what's best for your Rebel. We could've just picked some cheap sand and call it a day, but that won't work. Your Rebel has high standards, and so do you. That is why we chose and tested each ingredient carefully.

### MADE IN EUROPE!

Every ingredient is hand-picked by our staff. This time we didn't travel the high seas to design a formula: we collected the best ingredients close by home! Better for the environment, and better for you!

## UNSCENTED

10 liters - 10,3 kg  
431378 - DIRTY REBELS

For all Rebels that are tired of all those fancy smells, we have neutral, unscented cat litter. Perfect if you don't want to get reminded of the smells your Rebel can leave behind.

## FRESH GARDEN

10 liters - 10,3 kg  
431379 - DIRTY REBELS

We never get tired of walking through nature. Big trees moving with the wind, freshly cut grass, blossoming plants: now you can take the smell of spring inside your home! (Bees not included)

## WHITE LOTUS

10 liters - 10,3 kg  
431380 - DIRTY REBELS

Ever wanted to smell like flowers when you do your needs? We do, and your cat probably does as well. The tranquill vibes of the white lotus will transform your litter box in a little spa for your Rebel.

## BABY POWDER

10 liters - 10,3 kg  
431381 - DIRTY REBELS

You don't need to get babies if you want to enjoy the smell of baby powder. Just buy some Baby Powder DIRTY REBELS! Lucky for you: unlike with actual baby powder, you won't get dust all over your room!

## TEACH YOUR CAT HOW TO USE THE CAT TREE

#1

PICK UP A FAVOURITE TREAT OR CATNIP

#2

LET YOUR CAT SMELL IT, BUT DON'T GIVE IT TO HIM OR HER YET

#3

GUIDE YOUR CAT TO THE CAT TREE WITH THE TREAT AND GENTLY ENCOURAGE YOUR CAT TO SCRATCH

#4

WHEN YOUR CAT STARTS SCRATCHING, GIVE HIM OR HER THE TREAT AND A BIG HUG

#5

REPEAT THIS DAILY UNTIL YOUR CAT SCRATCHES THE SCRATCHING POST ON ITS OWN

TIP!

INSTEAD OF A TREAT, YOU CAN USE A TOY AS WELL!

## WHY DO CATS SCRATCH?

### TO MARK THEIR TERRITORY

Cats mark their territory by leaving their scent. They do this by passing their head somewhere, but also by scratching something. With the scent they leave behind, they let intruders know that they are not welcome.

### TO STAY FLEXIBLE AND FIT

Cats scratch to stretch themselves out, for example after they've slept. Think of it as a kind of cat fitness, because by scratching they keep their muscles supple and their body limber.

### FOR ATTENTION

Not one owner likes it when the cat scratches the furniture – no chair or sofa can withstand those small sharp nails. And your cat knows that. Your cat knows you will give it attention when they scratch your furniture. Because scratching is really necessary for cats, it is extremely important to have enough good scratching facilities at home. Even if your cat can go outside.

### AGAINST STRESS AND EXCITEMENT

Cats are sensitive creatures and are therefore easily startled. This can be positive excitement, for example when they are very happy that their owner is back home or when their dinner is served. But they also have to get rid of negative excitement. If something exciting has happened, such as an argument with another cat, a cat will relax by scratching extensively.
